Export Student Open Response Answers

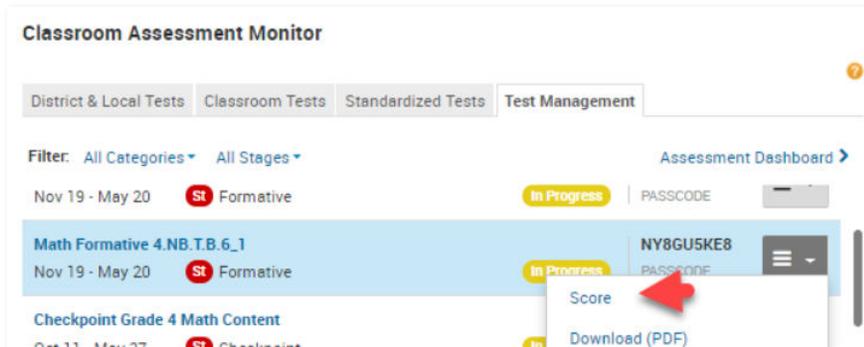

Use this document to learn how to print open response item answers from the score page in Schoolnet.

To locate the score page and export responses:

1. On the Schoolnet home page, select the class section

2. In the Classroom Assessment Monitor > Test Management tab, choose **Score** from the menu

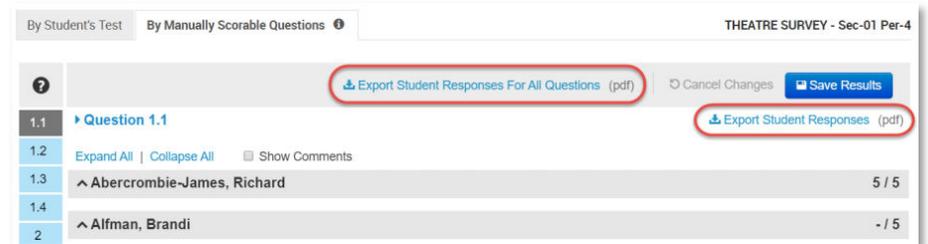

If you don't see the assessment listed, click **Assessment Dashboard** to locate it.

3. Click the **By Manually Scorable Questions** tab

4. Choose between the option to export a PDF of students' written responses for the selected single open response item or for all open response items on the assessment
