

### Accessing the 2023 TN Summer Program Pre-Tests

For the TN Summer 2023 Program, Pre-Tests do not need to be administered through Secure Tester. A student who has been provided with the online passcode (below in bold) can take the test by logging into **tn-student.schoolnet.com** and entering the online passcode in the “Take a Test” widget.

Please note that Summer SPEAR Data is not yet loaded as of 5/25/2023. This means that students are still available in Schoolnet within their classes from the 2022-2023 school year.

Building Testing Coordinators and Building Level Users can assist students with locating their usernames and temporary passwords. Instructions can be found here under **General Resources**:  
<https://tn.mypearsonsupport.com/schoolnet/>

Once the students have tested, the BTC or BLU will have access to provide student results, as needed.

When SPEAR Data is loaded, the rosters can be verified by running the *Current Section Enrollment for School* report found on the **Key Reports** widget when logging in to Schoolnet. (Or **Reporting>Reporting Dashboard > Click Published Reports** tab > click the “+” next to Enrollment).
